

Crown Disposal Company Inc. has over 50 years of experience in the collection of refuse and recyclables from residential, commercial, industrial and multi-family units. We are well known for our innovative recycling activities and the facilities owned and operated through our sister corporation, Community Recycling and Resource Recovery, Inc. (Community Recycling).

It is this unique business relationship that sets Crown Disposal apart from other hauling companies and allows Crown Disposal to provide superior recycling collection services and achieve such high diversion rates. Neither company owns a landfill and both continue working toward a goal of higher recycling rates and a ZERO WASTE future.
